Training material: I. ASR Inclusion Officer

The aim of ASR Inclusion Officer course is to provide ASRs operators with the opportunity to enhance their professional competences, in relation to the essential requirements of reception centers across Europe.

This will enable them to improve their performance in working with ASRs through better identification of processes and procedures needed.

The course is composed of the following 3 units:

[Unit 1 : Introduction to Reception Centers processes and procedures](#)

[Unit 2 : Methods and tools for acquiring Social and Inclusion soft skills](#)

[Unit 3 : Methods and tools for improving technical and analytical competences](#)

Training material: II. ASR Inclusion Professional

The ASR Inclusion Professional course aims at providing ASRs operators with specialized knowledge, skills and competences required to work with ASRs.

This will enable them to effectively implement processes and procedures needed in the hosting centers across Europe and to collaboratively work with their colleagues.

The course is composed of the following 3 units:

Unit 1 : Introduction to Reception Centers processes and procedures

Unit 2 : Methods and tools for implementing Social and Inclusion soft skills

Unit 3 : Methods and tools for implementing technical and analytical competences

Training material: III. ASR Inclusion Coordinator

The main purpose of ASR Inclusion **Coordinator** course is to offer the opportunity to ASRs operators to acquire advanced professional competences in relation to the essential requirements of reception centers across Europe. This will enable them to strengthen their performance in managing and supervising the work within reception centers hosting ASRs and, at the same time, to take responsibility and initiative to cope with unpredictable changes so as to ensure the effective mastery of processes and procedures needed in the hosting centers.

The course provides detailed contents structured in following 3 units:

Unit 1 : Introduction to Reception Centers processes and procedures

Unit 2 : Methods and tools for mastering Social and Inclusion soft skills

Unit 3 : Methods and tools for mastering technical and analytical competences
